RISK ASSESSMENT REVIEW/REVISION RECORD

Risk Assessment Ref No:	CBE 167	Version Number
		V3

This risk assessment should be reviewed **annually** or more frequently if there is any change in the work, or if new information becomes available that indicates the assessment may no longer be valid. **This form should be attached to the front of the current version of the risk assessment or to the new version of the risk assessment if one is issued**

The following review has been carried out on the dates indicated and either the assessment remains valid or it has been amended as indicated.

Name(s) of reviewer: Jenna Davis	Date: 07/02/2020
Signature: 	

Reason for Review:

Two PDP undergraduate students need to be added to the risk assessment to observe work performed in CBE and Chem Eng building S3

Revision Required (Y/N)	Y
-------------------------	---

If Yes, give details of the revision:

Other involved in the work to also include:

Lydia Booth

Andrew Herman

Students will not be undertaking any work in CBE themselves and will only be there to observe. Full training about CBE safety procedures will be provided, including reading the SOPs set out on LEARN and completing the training quiz.

Training in S3 will be provided by Tim Coles and Jenna Davis, the students will be observing and may undertake some established MIC and MBC assays under supervision from Jenna using the resolvins already approved for use. Students will also take part in basic microbiology preparation and procedures such as agar preparation, performing dilutions and spread plating. The students will read the existing risk assessments to ensure they are completely familiar with them.

Approval:

Instructions for Reviewer:

1. The completed form should be forwarded to the CBE Quality Manager. NOTE: Significant revision (See Guidelines GN006 & GN007) will require approval by the person supervising the work and subsequent review and approval by the original approving authority. This may require a revised version of the risk assessment to be issued for re-approval.
2. Where an annual review concludes that the risk assessment is still valid ie no revision is required, this should be recorded and the completed form forwarded to the CBE Quality Manager.
